Memo to File:

Re: Annie Laurie Mining Company
Kimberly Gold Mine
Piute County, Utah
ACT/031/001

Mr. Russel Reiserer called to find out more information on the State's requirements for Annie Laurie Mining Company's reactivation of the Kimberly property which includes a mine and mill.

According to Mr. Reiserer, the company is seeking a Farmers Home small mine loan for development purposes. He wanted more information on the preparation of an Environmental Impact Statement for this loan and how to go about preparing a mining and reclamation plan.

Present plans call for relocation of the old tailings pond to a more suitable location, mining and milling, and possible heap leaching of the low grade tailings. Mr. Reiserer is in possession of previous correspondence from the Division in regard to the tailings pond use and location and appeared willing to obtain professional help in locating a new tailings impoundment facility.

The company anticipates that exploration and/or development work will commence next spring. Mr. Reiserer was made aware that plan approval before starting work on this mine and mill is required.

The property should be monitored occasionally by Division Staff this winter and more frequently on into next spring to prevent un-authorized development.

A full complement of filing forms was sent to Mr. Reiserer.(MR-1,2,3,4,5,)
